

# Advanced formula for superior joint support

## SmartCanine Joint Ultra

SmartCanine Joint Ultra is a comprehensive joint formula offering a higher level of support for older dogs or dogs that are highly active. High levels of glucosamine, chondroitin sulfate and MSM are combined with hyaluronic acid (HA), Omega 3 fatty acids, antioxidants, herbs and other ingredients in a tasty chewable tablet to provide complete joint and cartilage support.

## What makes it smarter?

## Real Results and Ratings

“ Bailey is 12 years old and has been moving slower and was having problems getting up and down. Since taking this she is moving so much better. She almost has her spring back in her walk and **she doesn't move with the stiffness she had before.**

They must taste great as she is always eager to eat them. Wish I would have bought them sooner.
