

The SmartPak™ Pharmacy Equine, Dog & Cat Product Information Sheet

Hydroxyzine HCl

NOTE:

This product is FDA-approved for use in humans only. Using this product in animals is considered extra-label drug use and is permitted when a valid veterinary-client-patient relationship exists and a prescription has been written. Follow your veterinarian's instructions carefully when using this product.

You may be sent an FDA-approved generic drug that may be manufactured by more than one company. Therefore, the product you receive may not always have the same label, color or shape.

How Supplied by SmartPak – Hydroxyzine is available in 10mg, 25mg and 50mg strength tablets in daily dose SmartPaks or 100-count bottles.

Category – Hydroxyzine is not a cortical depressant, but its action may be due to a suppression of activity in certain key regions of the subcortical area of the central nervous system. Primary skeletal muscle relaxation has been demonstrated experimentally. Bronchodilator activity and antihistaminic and analgesic effects have been demonstrated experimentally and confirmed clinically. An antiemetic effect has been demonstrated.

Indications (Uses) – In humans Hydroxyzine is for symptomatic relief of anxiety and tension associated with psychoneurosis and as an adjunct in organic disease states in which anxiety is manifested. It is useful in the management of pruritus due to allergic conditions such as chronic urticaria and atopic and contact

dermatoses, and in histamine-mediated pruritus. It is useful as a sedative when used as premedication and following general anesthesia.

Dosage and Administration – Follow your veterinarian's instructions.

Contraindications – Hydroxyzine is contraindicated in early pregnancy and for patients who have shown a previous hypersensitivity to it.

Human warning – Keep out of reach of children.

Additional Warnings, Precautions, Drug Interactions, Adverse Reactions (Side Effects) and Contraindications – See package insert.

Storage Conditions: Store at controlled room temperature (59 – 86F) in a tight container.
