Inactive Ingredients:

Beet Pulp (dried product), Calcium Propionate, Grape Pomace (Ground Grape Seed and Skin), Lignin Sulfonate, Maltodextrin, Stabilized Flax Seed Meal, Stabilized Rice Bran.

A comprehensive formula designed to help manage Insulin Resistance, a condition associated with obesity in horses. Contains a broad selection of ingredients that work synergistically to support proper metabolic function and healthy blood sugar levels. Pellets.

Cautions:

- Safe use in pregnant animals or animals intended for breeding has not been proven.
- If animal's condition worsens, discontinue use and contact your veterinarian.
- An examination from a veterinarian is recommended prior to using this product.
- Not to be used with blood-thinners (Quercetin).
- May be hypoglycemic (Gymnema Sylvestri, American Ginseng, Siberian Ginseng).
- Use with caution with cardiac glycosides and MAO inhibitors and in animals with hypertension (American Ginseng).
- May be contraindicated in subjects with hypertension and anxiety (Siberian Ginseng).
- Not recommended for long term use (Selenium).
- Use with caution in conjunction with insulin or antidiabetic drugs (Bitter Melon).

For use in horses only.

Directions for Use: Administer 60 g daily to maintain healthy metabolic function and 120 g to provide more comprehensive support of metabolic function (1 scoop = 60 g)

Warnings:

- For animal use only.
- Keep out of the reach of children and animals. In case of accidental overdose, contact a health professional immediately.
- This product should not be given to animals intended for human consumption.
