A breakthrough supplement formulated to help manage Insulin Resistance, a condition associated with obesity and chronic laminitis in horses. Contains a selection of ingredients that work synergistically to support proper metabolic function and blood sugar regulation. Pellets.

Cautions:

- Safe use in pregnant animals or animals intended for breeding has not been proven.
- If animal's condition worsens or does not improve, stop product administration and consult your veterinarian.
- An examination from a veterinarian is recommended prior to using this product.
- Not to be used with blood-thinners (Quercitin)
- May be hypoglycemic (Gymnema Sylvestri, American Ginseng, Siberian Ginseng).
- Use with caution with cardiac glycosides and MAO inhibitors and in animals with hypertension (Ginseng).
- May be contraindicated in subjects with hypertension and anxiety (Siberian Ginseng).

For use in horses only.

Directions for Use: Administer 60 g daily to maintain healthy metabolic function and 120 g to provide more comprehensive support of metabolic function (1 scoop = 60 g)

Warnings:

- For animal use only.
- Keep out of the reach of children and other animals. In case of accidental overdose, contact a health professional immediately.
- This product should not be given to animals intended for human consumption.
