SmartEnergy®

Running low on horsepower? If your horse isn't giving you his all, it might be because he doesn't have everything he needs. Give him comprehensive nutritional support to **power his performance** so he can give you everything he's got.

What makes it smarter?

Comprehensive selection of nutrients that support healthy red blood cell production

B12 and Folic Acid, crucial to healthy energy levels

Iron-free approach to optimal energy

✓ 90% of customers would recommend SmartEnergy to a friend

Order in SmartPaks for the best value and the ultimate peace of mind

Is it the solution for my horse?

SmartEnergy is ideal for horses that lack stamina, are lethargic or are easily fatigued. These horses may have anemia – an insufficient level of red blood cells. While many other energy supplements are focused on providing iron, feeding extra iron has not been shown to improve red blood cell count or athletic ability, and veterinarians agree that iron is rarely deficient in a horse's diet. SmartEnergy offers a smarter solution by providing a range of nutritional building blocks required for the production of healthy red blood cells, without added iron.

Real Results

“ I ordered [SmartEnergy] for my mare and quickly noticed a change! **She had a lot more stamina when I rode her but never acts 'hot'.**

– JW from North Oxford, MA
