### SmartHoof®

Dry, brittle or cracked hooves can mean thrown shoes, tender soles and poor performance. **Give your horse the solid foundation he needs to be his best** — invest in his hoof health. Your horse (and your farrier) will thank you!

### What makes them smarter?

### Is it the solution for my horse?

**SmartHoof** is a comprehensive and cost-effective choice for maintaining healthy hooves in all horses. This formula contains 20 mg of Biotin along with Methionine, Lysine, Threonine, Copper, Zinc, Collagen, essential fatty acids, and other ingredients important to strong, durable hooves.

**SmartHoof Ultra** is formulated for hooves in need of more aggressive nutritional support, such as those with noticeable cracking or frequently lost shoes. This formula provides the same selection of ingredients as SmartHoof, with 30 mg of Biotin. SmartHoof Ultra also includes Silica, a trace mineral that plays a vital role in the formation of healthy, resilient connective tissue such as the hoof wall.

### Real Results

**“ Eskimo is moving better, he holds his shoes and every farrier says he has great feet! I would suggest SmartHoof to anyone! — TB from Chantilly, VA**
