

INTRODUCING GRAND FLEX SENIOR™

Keep your horse fit and sound - for the long term...
Give him the best care he deserves

Injuries can happen and as horses age a breakdown can occur in the function of the joint, muscle or tendons requiring a more aggressive joint supplement to help him recover, be comfortable, stay active, fit and sound...for the long term.

Proven joint support ingredients:

Grand Flex Senior contains all the important co-factors that have made the original Grand Flex so effective and successful. Plus high levels of Glucosamine, Hyaluronic Acid, Collagen Type II, Depolymerized Chondroitin Sulfate to promote healthy joint function and support the repair of existing joint damage.

Potent Natural Anti-inflammatories

Grand Flex Senior provides a powerful combination of MSM, Devil's Claw, Boswellia and Yucca to address inflammation and pain associated with normal exercise and overuse.

Optimal Digestion and Improved Immune Function

The final element that makes Grand Flex Senior truly unique is the inclusion of Diamond V™ Probiotic Yeast that will maximize bacterial digestion, increase immune function and help reduce the risk of colic.

Available in:
 3.75 lb. (1.7 kg) - 60 units
 10 lb. (4.54 kg) - 160 units
 20 lb. (9.09 kg) - 320 units
