

GRAND COAT™

Give your horse the “wow” factor Grand Coat™. Designed to deliver breathtaking colors, glossy coats and a lustrous mane and tail. Grand Coat’s unique quadruple action formula works quickly and provides dramatic results providing a rich source of Omega Fatty Acids, key minerals, and amino acids. The ingredient that really sets Grand Coat apart from other products is Lecithin, which supplies phospholipids, a vital requirement for helping enhance healthy skin and a deeper improved coat color.

The inclusion of Diamond V™ Probiotic Yeast, which is fully fermented and shelf-stable, provides effective support for the digestive system and helps keep the bacteria in the large intestine functioning effectively. Grand Coat will rapidly give your horse the “wow” factor, and everyone you know will be asking you what you did to make your horse so beautiful.

Enhances ALL coat colors - from Head to Tail.

Leucine	100 mg
Copper	25 mg
Biotin	1 mg
Amino Acid Profile	2,518 mg

* Improves Digestion and Boosts Immune Function

“Grand Coat has made such a difference. Arjen, my Friesian had a brown, dull coat as well as a bad case of scratches when he first arrived. Within a month of feeding Grand Coat I couldn’t believe the color I was seeing as well as a much improved, beautiful healthy, shiny coat. The scratches healed up completely and within a few months his mane and tail thickened up nicely. It is a fantastic product and reasonably priced - it works!”
