

GRAND DIGEST

First Complete Digestive Formula for all Three Stages of the Digestion Process

Are you worried about the risks of colic, ulcers, diarrhea, poor immune function or digestive problems? Keeping your horse's digestive system in balance and healthy can be a challenge.

Grand Digest is the solution to managing all three stages of digestion and the most comprehensive digestive product available.

Stomach – Detox Grand Digest starts working in the stomach by combining Toxynil-Plus™ and Zeolytes to bind and neutralize mycotoxins and allow them to pass harmlessly through the body. The addition of Glutamine provides nourishment and repair to the sensitive stomach lining where ulcers can occur.

Small Intestine – Enhance Absorption As feed passes into the small intestine our Multizyme™ blend enhances the enzymatic breakdown of nutrients and Glutamine causes the important intestinal villi to grow and thus improve their ability to absorb and carry nutrients into the bloodstream.

Hindgut – Improve In the hindgut or large intestine our combination of Fungi known as Aspergillus Oryzae and shelf stable Diamond V™ Yeast provide a powerful support system to maximize the breakdown of more fibrous feed, stabilize the PH reducing the risk of colic and significantly improving the function of the immune system.

PRODUCT FACTS

	Per 2oz. (56.76 g) unit
Zeolytes	21,262 mg
Sacchorymyces Cerevisiae Yeast Fermentation Product	11,340 mg
Sodium Aluminosilicate	7,382 mg
Digestive Enzyme Blend (Amylase, Cellulase, Lipase, Glucanase, Pectinase, Xylanase, Lactase)	4,252 mg
Dried Aspergillus Oryzae Fermentation Product	3,969 mg
Glutamine	1,984 mg

"I am overwhelmed with the results of this total digestive formula. It made a dramatic difference in our top competition horse to improve his condition and eliminate his mild colic symptoms. We feed Grand Digest to all our horses to keep them fit with a good attitude and to protect against serious digestive complications such as weight loss, ulcers, and colic."

Carolina White
Paso Robles, CA

Detox Enhance Absorption Improve Digestion

- 1. Binds and neutralizes mycotoxins and protects the stomach lining.
- 2. Enhances enzymatic action and increases nutrient absorption.
- 3. Maximizes bacterial digestion and reduces the risk of colic.
