

How To Use The HORSEWARE® LINER SYSTEM

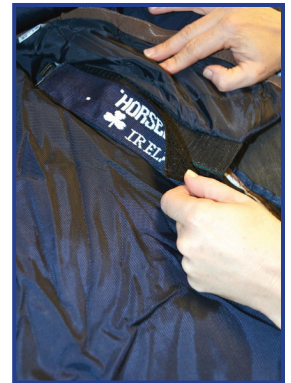

1 Front closure (Rambo® Duo features the patented 'V' Front Closure)

2 Unfasten the front closure and velcro to expose the Horseware® Liner

3 Horseware® Liner closes in the front with one surcingle - it does not hook to the turnout at the chest

4 Remove neck cover (where applicable)

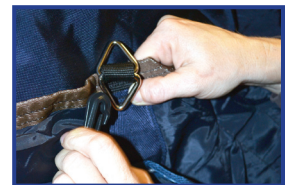

5 After removing the neck cover and opening the blanket you will see the liner loops located on the inside of the turnout

6 The liner fastens to the turnout through the liner loops with velcro

7 At the rear of the blanket there are two D-rings. One for the tail cord and one for the liner

8 The liner attaches to the D-ring with a snap hook
